DSM-14 Low-Income Weatherization Support Program

[N]

Purpose:

This program provides financial support to Community Action Agencies (“CAAs”) in Kentucky that provide weatherization assistance to retail members of Big Rivers’ Member Cooperatives pursuant to the Weatherization Assistance Program (“WAP”) administered and funded by the United States Department of Energy. The WAP provides funds for CAAs to deliver weatherization services to low-income residents using either in-house employees or private contractors. This DSM program will fund weatherization-related measures that otherwise would not be accomplished under the WAP due to limitations of government funding for health and safety measures and for high efficiency heating, ventilation and air conditioning (“HVAC”) upgrades.

Availability:

This DSM program’s weatherization assistance is available to the applicable CAAs subject to the limitations and eligibility requirements of this program, to budgetary constraints, and to the rules and regulations of this tariff.

Eligibility:

To be eligible for reimbursement, a CAA must undertake and complete qualifying weatherization improvements in accordance with this DSM program, including the Terms and Conditions set forth below, at the primary residence of a residential customer of one of Big Rivers’ Member Cooperatives, who qualifies for assistance under the WAP.

Low-Income Weatherization Support Program

Incentives:

Big Rivers will reimburse an eligible CAA up to \$1500 per project for the cost of completed health and safety measures (e.g., standing water, mold, deteriorated lead-based paint surfaces or other hazardous materials; evidence of infestations of rodents, insects, and/or other vermin; presence of sewage or animal feces in the home; electrical or plumbing hazards, or structural failures that cannot be addressed as a part of weatherization services, etc.) that otherwise would not be completed under WAP due to limitations on government funding for such measures.

Big Rivers also will reimburse an eligible CAA up to \$1500 per project for residential HVAC improvements that upgrade a Rural Customer's existing HVAC system to an electric ENERGY STAR® qualifying heat pump or air conditioning system and that otherwise would not be completed under WAP due to limitations on government funding for such upgrades.
